

the honor to acknowledge : "The whole number found thus far is *nine*, and all were comprised within a space of about ten by fifteen feet. Three of them were adults—one male, of a very large size, and two females; the others were children and youth. Considering the time that must have elapsed since they were interred, the bones were in a tolerable state of preservation. Two of the craniums were nearly perfect—that of the adult male and one of the adult females. They were each enshrouded in a thick envelope, consisting of several thicknesses of *pitch pine bark*—the only exception being what appeared to be a female between two infants, all being enclosed in one general envelope. The skeletons all lay upon the right side, in a direction north and south, the face looking east; the lower limbs somewhat *flexed* upon the trunk, the knees flexed at about right angles, and the elbows completely flexed, the head resting upon the right hand.

I have the honor to be,

Very respectfully,

Your friend,

WM. PRESCOTT."

## DOCUMENTS FOR CHAPTER VI.

- No. 1, pp. 190, 191. From this document, which is placed on file at length, it appears that Capt. Eastman's company marched from "Stephenstown," which was also called "Bakerstown" — now called Franklin — about the last of July, 1755. On the 16th of August they were at Deerfield, Mass. "Then our company took allowance of bread, meat and rum; part of our bread we took at Northfield, 2 days before, but we took no pease." On the 24th of August they were at Albany. "This day we took allowance of bread, meat, and Aug. 25th we took allowance of pease; all which allowance we took for 8 days, and our rum we took every day." On the 6th of Sept. they were at Fort Lyman; and on the 8th of Sept. at Lake Sacrament. "We fought with the enemy; and Timothy Eastman was wounded." Sept. 13, "we took  $\frac{1}{2}$  pint of molasses each." Sept. 19. "From the 30th of Aug. until now, we took no rum, except

$\frac{1}{2}$  a gill each at a time, when 16 of us came from 'ye Lake, from fighting, to Fort Lyman, and  $\frac{1}{2}$  a gill each at 'ye Lake, twice; and a gill each, since; and 18 of us received a pint each, in order to go to scouting; and Sept. 18, ten of our men went to scouting, and received a pint each and 20 ounces of ginger at once; and no flour since Sept. 6, nor molasses, nor no sugar since we came from Albany. Sept. 18 and 19, we rec'd a gill and a half of rum, in all, each, and a quart of molasses for 'ye sick in our company." SEAL An Act setting off a part of the town of Bow, together with some lands adjoining thereto, with the inhabitants thereon, and making them a Parish; investing them with such privileges and immunities as towns in this Province have and do enjoy.

Whereas, there are sundry arrearages of taxes now due, which the inhabitants aforesaid apprehend they cannot levy for want of sufficient authority, and several of them praying they might be erected into a town or parish, and enjoy the common privileges of other towns in this Province:

*Be it enacted*, Therefore, by the Governor, Council and Assembly, that the inhabitants who are settled on the lands hereafter described, viz.: Beginning at the mouth of Contoocook river, (so called,) which is the southeast corner of Boscawen, from thence running south, seventy-three degrees west, by said Boscawen, four miles; from thence running south, seventeen degrees east, seven miles and one hundred rods; from thence running north, seventy-three degrees

east, about four miles, to Merrimack river; then crossing the said river, and still continuing the same course to Soucook river; then beginning again at the mouth of Contoocook river aforesaid; from thence running north, seventy-three degrees east, six hundred and six rods from the easterly bank of Merrimack river, or till it shall come to the south-east line of Canterbury; from thence south-east, on said line, two miles and eighty rods; from thence down the said river, till it comes to where the line from Merrimack river strikes Soucook river.

And that the polls and estates within the aforesaid boundary be, and hereby are, set off and made a parish by the name of CONCORD, and invested and enfranchised with all the powers, privileges and authorities which any town in this Province doth by law enjoy, excepting that when any of the inhabitants of the aforesaid parish shall have occasion to lay out any road through any of the lands that are already laid out and divided by the said town of Bow, that application shall be for the same to Court of General Quarter Sessions of the Peace for the said Province, as in other cases.

And that the said inhabitants of said parish are hereby subjected to the same duties, pains and penalties the law subjects the inhabitants of other towns in this Province.

And that their first meeting for the choice of town officers be held on the third Tuesday of August next, which officers shall stand and continue till the next March following; which meeting shall be notified by Samuel Emerson, Esq., who is hereby directed to post the same, together with the time, place and occasion thereof, in some public place in said parish, fifteen days beforehand, who shall also govern said meeting until a moderator shall be chosen by the major part of such inhabitants as the law directs in such cases; and that their annual meeting for the future for the choice of town officers be held on the first Tuesdays [of March,] annually.

And that the officers that shall be chosen in virtue of this act are hereby invested with the same powers which other like officers have in other towns in this Province, and under the same duties and penalties of other like officers.

And whereas the Province tax for the year 1763, which arose and should have been paid by the said town of Bow, as their proportion thereof, amounting to eighty pounds ten shillings sterling, and ninety-six pounds twelve shillings new tenor; and for the year 1764, the sum of ninety-six pounds two shillings new tenor:

*Be it therefore enacted*, That the selectmen that shall be chosen in consequence of this act the day the first meeting shall be held for the choice of town officers, as aforesaid, together with John Noyes and Edward Russell, Esqrs., or the major part of them, shall assess the polls and estates of the inhabitants living within the aforesaid limits, as also the other inhabitants within the remaining part of Bow, (exclusive of such as are already set off to Pembroke and New-Hopkinton,) with the said tax that arose and became due in said year 1763, together with the current charges that shall arise on said Bow for the year 1765, and order the same to be paid into the treasury of said Province by the 25th day of December, 1765; and the selectmen that shall be chosen in said parish for the year 1766, together with the said John Noyes and Edward Russell, or the major part of them, as aforesaid, shall assess all the inhabitants that shall be within the said boundaries and the aforesaid town of Bow, excepting as aforesaid, with the sum of ninety pounds twelve shillings, new tenor, together with the current charges of the year 1766, and order the same to be paid by the 25th day of December, 1766; and that the selectmen that shall be chosen annually for this parish, together with the aforesaid John Noyes and Edward Russell, as aforesaid, shall annually assess the inhabitants aforesaid with the current charges of the government that shall be due from the said town of Bow, as their part of the Province tax, until a new proportion of the same shall be made.

And be it further enacted, that the constable or collectors who shall have any of the said taxes to collect, shall have full power and authority to levy and collect the same, as though all the persons mentioned in the respective lists were within the aforesaid parish.

And be it further enacted, that no person or persons who shall move into the said town of Bow, on any new lands that are not improved, nor the polls that

No. 4, p. 241. "It was said by some at the time, that one object the selectmen of Concord had in view in consenting to this change, was, to get rid of supporting a certain bridge, that crossed the Merrimack considerably below where the present bridge is. But some few years after, the Court, on petition for that purpose, straightened the road, and located the bridge further up the river, in Concord, on condition that each of the two towns should build and forever support one half of it. Boscawen consented to the condition, and called a special town meeting, at which they chose an agent, and authorized him to bind the town to build and support one half of the bridge. This they did for several years, but finding that they could not be legally compelled to support a bridge out of town, refused to do it. Concord prosecuted Boscawen, but failed of their object, and now the support of the *whole* bridge devolves on Concord."\*

## DOCUMENTS FOR CHAPTER XIII.

No. 1, p. 369. Index to the "return of roads." This index shows where, in the town records, the laying out of a particular road is recorded.

The documents referred to, page 547, containing a catalogue of quadrupeds, birds, reptiles and fishes, scientifically arranged by Dr. William Prescott, of Concord; and page 550, a catalogue of forest trees and shrubs, by the same gentleman, I am compelled to place on file, except that containing a catalogue of fishes. They are a valuable contribution to the department of Natural History, and with regret they are omitted.

\* In June, 1812, Nath'l Parker sailed from Salem, in the privateer sloop Polly, and was taken prisoner and carried into Halifax. He was released by exchange.

The following is Dr. Prescott's catalogue and statement respecting fishes :

REV. N. BOUTON, — DEAR SIR :

The following catalogue comprises all the fishes that inhabit the waters in this vicinity, so far as they have come to my knowledge. Two of these, the *Lake*, or *Winnipissaukee Trout*, and the *White Fish*, are confined to the Winnipissaukee ; all the others traverse our streams and smaller ponds.

There exist in these waters four *new species* of fishes, which I described and read before the American Association for the Advancement of Science, and which was published in Silliman's Journal for May, 1851.

These new species I described under the names of *Salmo Symmetrica*, the *Winnipissaukee Trout*, the *Coregonus Nov-Anglicæ*, the *Shad Waiter*, the *Coregonus Neo-Hautoniensis*, the *White Fish*, and the *Lota Brosmiana*, a fish that has been generally, but erroneously, called the *Cusk*. The *Cusk* is a marine fish ; is much shorter in proportion to the weight, and has but one fin on its back, while the *Lota* has two dorsal fins.

The foregoing is interesting as showing the amount of rates assessed on the property of individuals named, for the salary of Rev. Mr. Walker, in the year ending May, 1756. It is also important as exhibiting the value of the "old tenor" currency compared with the "new tenor" or *lawful money*. The rate is made in the "old tenor" currency. The "old tenor" was the currency which consisted in "bills of credit" issued by the Legislature of the Provinces, having the nominal value of silver money at a given rate per ounce. These "bills of credit" were liable to depreciation; but Mr. Walker's salary was "to be paid in the medium of trade for the time being in the Province, at silver, 17s. per ounce." The *real* value, however, of an ounce of silver was one English crown, or 6s. and 8d. The late John Farmer, Esq., therefore, reckoned £100 as equivalent in 1730 to \$130.37. The "old tenor" currency had been in use for many years; but the "bills of credit" had so depreciated that it became important to establish a new currency, or to reckon silver at a different rate per ounce. This change was made in Connecticut, in 1740,\* and about the same time in Massachusetts and New-Hampshire. The new tenor was called "lawful money," because it was by law made a "lawful" tender for paying debts. In 1750 "a correct table" was published in Boston, "to bring old tenor into lawful money at the rate of dollars, at six shillings per piece, from one penny to twenty shillings, old tenor."† According to this table,

2s. 6d. old tenor, was equal to 0s. 4d. 0q. new tenor.									
3	0	"	"	"	"	0	4	3 <sup>1</sup> / <sub>5</sub>	"

9	0	"	"	"	"	1	2	1	"

15	0	"	"	"	"	2	0	0	"
20	0	"	"	"	"	2	8	0	"

Whoever, then, is curious to make the cast, will find that the rate for Rev. Mr. Walker's salary reckoned as it was in "old tenor," which was long kept up, even after the currency was changed, was not very heavy on the inhabitants of Rumford. For example, James and Amos Abbot's rate was £13 10s. "old tenor," which, reduced to "new tenor," was 36s., or \$6.00. Lieut. Nathaniel Abbot's rate was £6 old tenor, equal to 16s., or \$2.67. Dea. Ephraim Farnum's rate was £15 10s., equal to £2 1s. 4d. new tenor, or \$6.87<sup>1</sup>/<sub>2</sub>, which was the highest rate on the list.

When Canterbury and Loudon constituted a part of the eleventh regiment, there were ten or twelve companies of infantry, but after the division of the regiment there were but eight companies. The greatest number in any month is in August; and a less number in the fall than in the spring and summer months.

These tables and estimates are results of the author's personal observation and inquiry, not made with *medical* knowledge or skill.

THE "DARK DAY," FRIDAY, MAY 19, 1780.

BY GEORGE ABBOT, ESQ.

The circumstances and appearances which marked this memorable day, as near as can be recollected by using the language of the old people who witnessed them, were as follows:

The morning exhibited nothing remarkable, except a thick, smoky atmosphere, and a pale glimmering of the eastern sky. About eight or nine o'clock smoke and clouds obscured the sun. The heavens assumed a brassy appearance, something like that of the moon when she is totally eclipsed. About ten or eleven o'clock a gloomy and melancholy darkness involved all terrestrial objects. The domestic fowls and the birds and beasts repaired to the retreats of night; consternation and horror seized the minds of mortals—they expecting that the final dissolution of all things was near. About noon the darkness was so great that it was necessary to light candles in the houses. The darkness and brassy color of the sky continued with little alteration during the remainder of the day, and the night was as remarkably dark as the day.

1794, May 18. GREAT FROST. In some places the rye and flax were killed. The apples were as large as ounce balls, and were all killed in the West Parish, *except two apples which Mr. Joseph Hoyt raised on his farm on Horse-hill!*

1806, June 16. SOLAR ECLIPSE OF THE SUN. The shadow of the leaves resembled the moon in the first and last quarters. The domestic fowls went to their retreats of night.

1815, Sept. 23. A REMARKABLE HIGH WIND IN THE NEW-ENGLAND STATES. The wind was south-east, and was attended with rain. Buildings were unroofed and blown down, and also trees, and in some places acres of trees in the woods were blown down. Vessels were driven upon the coast, and much damage done thereby.

to use is — "We request of them such aid, both with respect to men and military stores, as to their great wisdom may seem meet, and which may be sufficient to enable us, with the Divine blessing, vigorously to repel all attempts of our said enemies."

In answer to these petitions, early in 1745 two small companies of scouts were raised, by authority of Gov. Wentworth, under the direction of Col. Benjamin Rolfe, of which Capt. John Chandler, of Rumford, had command of one, consisting of ten men, and Capt. Jeremiah Clough, of Canterbury, of the other, consisting of five men.\* The Massachusetts government also sent a small detachment of men from Andover, and another from Billerica, who were stationed here in 1745. In 1746 precautionary measures were taken by the proprietors for the preservation of their records.† Under authority of Gov. Wentworth, garrisons were established at different points in the town, and men, with their families, assigned to them, as was most convenient.

The garrisons, or forts, were built of hewed logs, which lay flat upon each other — the ends, being fitted for the purpose, were inserted in grooves cut in large posts erected at each corner.‡ They enclosed an area of several square rods; were raised to the height of the roof of a common dwelling-house, and at two or more of the corners were placed boxes where sentinels kept watch. In some cases several small buildings —

\* See Documents for Chap. V., No. 5.

† At a meeting of the proprietors, the 19th of March, 1746 — *Voted*, "That Benjamin Rolfe, Esq., clerk for said proprietors, be directed and ordered to carry the proprietors' books of record to the town of Newbury, or any other town where he shall judge they may be kept safest."

"*Voted*, That Benjamin Rolfe, Esq., be desired and ordered to purchase suitable books, at the proprietors' cost, and copy all the Proprietors' Records therein, for £100, old tenor, to be paid him by the proprietors."

1747.

February 9, 1746. *Voted*, That Dr. Ezra Carter be clerk for this meeting — Benjamin Rolfe, Esq., the clerk for said Rumford, being out of the province.

*Voted*, That two men be chosen to represent the difficult circumstances of the inhabitants of said Rumford to the Great and General Court, at Portsmouth, respecting the danger we are exposed to, both from the French and Indian enemy, and to request of them such aid or protection as they in their great wisdom shall think meet.

*Voted*, That Capt. Ebenezer Eastman and Mr. Henry Lovejoy be chosen to make the aforesaid representation.

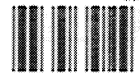

‡ A part of one of the main posts of the garrison round the house of Rev. Mr. Walker is still preserved, and may be seen in the room of the N. H. Historical Society. It was presented to the society by Joseph B. Walker, Esq.
